The numbers which appear at the end of the entries [A246] are those of the Class Divisions where the books are to be found. Each class (save fiction) is arranged in a progressive, numerical order, and the books are marked to correspond. Copies of the Adjustable Classification scheme by which the Library is arranged, with Index and Catalogues, will be found attached to every bookcase.

NOTE.—Numbers preceded by the letter “P” or “S” represent books which are at the Pentonville or St. Sepulchre Branch Libraries, whilst entries with the abbreviation Ref. preceding the accession number denote that the work is shelved in the Central Reference Library. Other abbreviations are: C.: century; ed.: editor; frontis.: frontispiece; ill.: illustrated; n.d.: no date of publication; port.: portrait; trans.: translated; v.: volume.

Class A.—Science.

Canada. Department of Mines. Cirkel (Fritz) Report on the **iron ore deposits** along the Ottawa (Quebec side) and Gatineau Rivers. *Ottawa*. 1909. *maps. ill.*
[A246 × F210] Ref. 941

Canada. Department of Mines. Geological Survey Branch. Young (G. A.) *A Descriptive Sketch of the geology and economic minerals of Canada.* *Ottawa.* 1909. *maps. ill.* [A232 × F210]... .. Ref. 940

Chatley (Herbert) *The Force of the wind.* 1909. *ill.* [A300 × B78] 7088
Wind pressure in relation to engineering, including structure, moving bodies, and power production.

Cirkel (Fritz) *Report on the iron ore deposits along the Ottawa (Quebec side) and Gatineau Rivers.* *Ottawa.* 1909. *maps. ill.* [A246 × F210] Ref. 941
Official publication of the Dept. of Mines, Canada.

Crookes (Sir William) *Diamonds.* 1909. [A246 × B191] 8219
Deals with the geology, physical and chemical properties of the diamond, and artificial production, with an account of the De Beers' Mines at Kimberley, visited by the author in 1896 and 1905.

Finn (Frank) *Pets and how to keep them.* 1907. *col. plates. ill.* [A52] 3581
Deals with the care and management of all kinds of English and foreign animals, cage and aviary birds, garden and park birds, reptiles, and amphibians and fish.

Furneaux (W. S.) *Field and Woodland plants.* 1909. *col. plates. ill.* [A204] [*Outdoor World Series*] ... 6263
Popular guide to the identification and study of British wild flowers, trees, and shrubs, arranged according to their seasons, habitats and habits. Chapters on the general characters of plants; pollination and fertilisation. List of flowers classified according to their habitats and habits, and according to their orders and genera.

Joly (J.) *Radio-activity and geology, an account of the radio-active energy on terrestrial history.* 1909. *ill.* [A226 × 269] 19118
Author is Professor of Geology and Mineralogy, University of Dublin.

Le Bon (Gustave) *The Evolution of forces.* 1908. *ill.* [A266] [*International Scientific Series*] 5680
Part 1.—The New Principles. Part 2.—The Problems of Physics. Author enlarges on the theory that the atom is a great reservoir of energy, and is itself the source of most of the forces of the universe.

- Lodge** (Sir Oliver) **The Survival of man**: a study in unrecognised human faculty. 1909. [A362] ... 5883

Author, who is Principal, Birmingham University, is convinced of man's survival after bodily death. Objects and aims of psychical research, origin and practical work of the Society for Psychical Research. Experimental telepathy and thought transference, spontaneous telepathy and clairvoyance, automatism and lucidity. Includes results of author's personal investigations. Memorial address on F. W. H. Myers.

- Love** (A. E. H.) **Elements of differential and integral calculus**. 1909. [A334] ... 6832

- Olcott** (William T.) In **Starland** with a three inch telescope: a conveniently arranged guide for the use of the amateur astronomer. 1909. *diagrams*. [A318] ... 9778

- Rudaux** (L.) How to study the **Stars**. Astronomy with small telescopes and the naked eyes, and notes on celestial photography. *trans.* by A. H. Keane. 1909. *ill.* [A318] ... 6924

Explains the means of astronomical observation and the principal methods, enabling the reader to acquire a general knowledge of the heavenly bodies.

- Thomas** (H. H.) and D. A. MacAlister. **The geology of ore deposits**. 1909. *ill.* [A244] ... 7494

An account of the various processes by which, in nature local concentrations of metalliferous material have been brought about in such amounts and under such conditions that the ores become commercially valuable.

- Wenlock** (Rankin) **The Public School modern book-keeping**. 1910. [A332] ... 8026

Contains numerous worked-out examples, exercises. Chapter on how to open the books of a Joint Stock Company, and examination papers set by Civil Service Commissioners and other bodies.

- Weule** (Karl) Native life in **East Africa**: the results of an ethnological research expedition; *trans.* by Alice Werner. 1909. *port. ill. map.* [A36 x F130] ... 6664

Author is Director, Leipzig Ethnological Museum. An ethnological study of the tribes inhabiting the South East of German East Africa.

- Young (G. A.)** A Descriptive Sketch of the **geology and economic minerals** of Canada. Ottawa. 1909.
mps. ill. [A232 × F210] Ref. 940
 Official publication of the Dept. of Mines, Geological Survey Branch, Canada.

OPTICAL SCIENCE.

- Optical Society**, London. Transactions. Session. 1907-1908. n.d. [1908] *ill.* [A278 × B440] ... Ref. 945

Contents:

- M. H. E. Tscherning.* Development of physiological optics in the 19th Century.
G. T. Beilby. Researches on polished Surfaces.
H. L. Taylor. Relative value of parts in Spectacle manufacture.
R. T. Glazebrook. Resolving power and definition in optical instruments.
G. T. Burch. On colour vision.
V. H. Mackinney. Optics of light projection.
Report on the Standardisation of trial glasses by the Optical Standards Committee.
F. J. Cheshire. Some new optical projection apparatus.

- Parkinson (S.)** A Treatise on **optics**. 4th ed. 1884.
diagrams. [A278] 8030

Based on "A Treatise on optics" by W. N. Griffin. Deals with geometrical optics; examples and problems are given throughout the work.

- Percival (A. S.)** **Optics:** a manual for Students. 1899.
 [A278] 8153

Designed for the use of ophthalmic students

- Schuster (Arthur)** An Introduction to the **theory of optics**. 2nd ed. 1909. *diagrams.* [A278] 7398

Author is Honorary Professor of Physics University of Manchester. This edition is revised and includes recent theories and discoveries.

- Suter (William N.)** Handbook of **optics** for students of ophthalmology. New York. 1899. *diagrams.* [A280] ... 8027

- Taylor (H. Dennis)** A System of **applied optics**, being a complete system of formulæ of the second order, and the foundation of a complete system of the third order, with examples of their practical application. 1906.
diagrams. [A280] 9783

- Wright** (Lewis) **Light**: a course of experimental optics chiefly with the lantern. 2nd ed. 1892. *Col. plates. diagrams.* [A278] 8031

Class B.—Useful Arts and Applied Science.

- Ball** (Robert S.) **Natural Sources of power.** 1908. *ill.*
[B106] Ref. 778

Application of the force of water and wind as motive power for machinery.

- Brewer** (Robert W. A.) **The Motor Car**: a practical manual for the use of students and motor car owners, with notes on the internal combustion engine and its fuel. 1909. *ill.* [B304] 7612

- Byles** (C. B.) **The first principles of railway signalling**, including an account of the legislation in the United Kingdom affecting the working of railways and the provision of signalling and safety appliances. 1910. *ill.* [B196] 7367

Author is Signal Engineer Lancashire and Yorkshire Railway. Theory and practice of the various systems of Signalling, with historical chapter.

- Crane** (D. B.) **The Book of the sweet pea.** 1910. *ill.*
[B48] 6997

Practical guide to sweet pea culture, with a chapter on its history and evolution, a classification of the best varieties according to colour, and a bibliography.

- Curtis** (A. C.) **The Small garden beautiful.** 1909. *plans. ill.* [B44] 5865

Practical guide to the management of moderate sized gardens, with special chapters on design, small rock and water gardens, shrubs and climbers with annotated list. Contains ten useful plans.

- Fischel** (Oskar) and Max von Boehm. **Modes and manners** of the nineteenth century as represented in the pictures and engravings of the time; *trans.* by M. Edwardes, with an introduction by Grace Rhys. 3 v. 1909. *Col. plates. ill.* [B504] Ref. 952-4

A review of European Costume, especially French and English, from 1790 to 1843.

- Ffoulkes** (Charles) **Armour and weapons.** 1909. *ill.*
[B122] Ref. 782

Short history of the development of European armour and weapons, including notes on the technicalities of the craft of the armourer.

- Freeman** (Albert C.) **Small estate management:** the estate agent's guide to building and management of estates, small holdings, cottages, etc. 1909. *ill.*
[B62 x D328] 7011

Practical guide to the management of estates and duties of an estate Surveyor, the Small Holdings Act, 1907, planning and construction of farm and other buildings, construction and arrangement of dairies and the working of small holdings.

- Gissing** (Frederick T.) **Commercial peat:** its possibilities and uses. 1909. *ill.* [B277] 7592

Describes methods and machinery for the cutting, drying, etc., of peat, and the processes in the manufacture of various commercial products from peat, with an account of the peat deposits of the world. Bibliography.

- Hayden** (Arthur) **Chats on English earthenware.** 1909. *ill. col. frontis.* [B386] Ref. 754

History and description of English earthenware, with glossary of terms and bibliography. A practical guide for collectors.

- Herring-Shaw** (A.) **Domestic Sanitation and plumbing:** a treatise of the materials, designs, and methods used in Sanitary engineering; manufacture, joining and fixing of pipes, sanitary fittings, etc.; removal of waste matter; water supply; hot water services; heating; ventilation, etc. Part 1. 1909. [B74] 7411

Author is Assistant Lecturer in Sanitary Engineering, Victoria University, Manchester. This part deals with materials and their uses; soil, waste, and vent pipes; sanitary fittings, house drainage; cesspools and disposal of house sewage.

- Jane** (Fred T.) **All the world's Air-Ships.** (Flying Annual.) 1909. *ill.* [B86] 783

Illustrations of the world's aeroplanes and dirigibles, arranged according to nationality, with full descriptions. Part 2 contains the following special articles:—

Aerial Warfare. Admiral Sir Percy Scott.

The Future of dirigibles. "Ripping Panel."

The Political Aspect of aviation. L. C. Jane.

An aerial possibility. René Declarges.

Aerial Engineering. C. de Grave Sells.

Glossary of technical terms with French, German, and Italian equivalents.

- Kershaw** (John B. C.) **Electro-metallurgy.** 1908.
ill. [B238] 666I

Practical treatise on the extraction and refining of metals by the aid of electricity, with historical chapter. Glossary.

- Macewen** (Hugh A.) **Food inspection : a practical hand-book.** 1909. *ill.* [B478 × 496] 8179

Author is assistant Medical Officer of Health for Cumberland. Deals with the methods employed in the inspection of meat and other foods, and the principles underlying the hygienic production of prepared foods. Construction and management of slaughter houses. Legislation. Milk is not dealt with.

- Mares** (George C.) **The History of the typewriter: being an illustrated account of the origin, rise and development of the writing machine.** 1909. [B361] ... 6958

History, principles, and description of the numerous patterns of typewriters. Chapter on the use of the typewriter in telegraphy.

- Mayall** (G.) **Cows, cow-houses and milk.** 1909. *ill.*
 [B36] 7014

Author is M.R.C.V.S. Practical work on the general management of milch cattle and cow-houses; treatment of milk, preservation. Sanitary methods, diseases of cows that effect milk, and preventative measures. Literature of the subject.

- Murray** (J. Alan) **Soils and manures.** 1910. *ill.*
 [B30] 979I

Deals with the origin of soils, physical properties, chemistry, biology, fertility, principles of manuring, and a full account of the various manures and methods of use. Instructions for valuing manures. Table of composition and manurial value of various farm goods.

- Oliver** (Thomas) **Diseases of occupation from the legislative, social and medical points of view.** 1909.
ill. [B440] [*New Library of Medicine*] 5863

Author is Physician, Royal Victoria Infirmary, Newcastle-upon-Tyne. Describes the diseases contracted by workers in various trades, their causes and effects. Introduction deals with Factory legislation to protect the health of workpeople.

- Rosenhain** (Walter) **Glass** manufacture. 1908. *ill.*
[B326] 7402
Popular account of the physical and chemical properties of glass, and the processes in the manufacture of the various kinds. Two chapters on optical glass. Bibliography.
- Soper** (George A.) Modern methods of **street cleaning**. 1909. *ill.* [B474] 7266
Principles and practice of street cleaning, with special chapters on the methods employed in London, Westminster, Manchester, Paris, Berlin, Hamburg, Cologne, Amsterdam, and New York.
- Tobler** (A.) Elektrische uhren. 2nd ed. 1909. *ill.*
[B364] Ref. 935
A German work on the construction of electric clocks, chronographs, and other scientific instruments, and the notification of correct time to distant places by electricity. List of patents in connection with electric clockwork taken out between 1877 and 1909.
- Trautwine** (John C., Junr.) and John C. Trautwine. Concrete. 3rd ed. 1909. [B70] 7175
Series of articles on concrete, plain and reinforced.
- Weir** (Harrison) **Our Poultry** and all about them, their varieties, habits, mating, breeding, selection, and management for pleasure and profit, with chapters and notes, historical, antiquarian, traditional, proverbial, curious, instructive and interesting. 2 v. *ill. col. plates.*
[B36 × A118] Ref. 763-4
Includes ducks, geese, turkeys, guinea fowl, peacocks, and swans. Glossary.

ELECTRICAL ENGINEERING.

- Bedell** (Frederick) and C. A. Pierce. Direct and alternating **current testing**. 1909. *diagrams.* [B96] ... 9794
Bedell is Professor of Applied Electricity, Cornell University, Chicago. An introductory series of experiments with direct and alternating current apparatus, explaining also the principles which underlie the experiments, and the significance of the results.
- British Post Office** Telephone Service: being an illustrated description of the Trunk, Central, and other Exchanges in the Metropolitan Area of the British Post Office. n.d. [1909] *ill.* [B102] 9780
A general description of the system showing deposition of plant, and types of apparatus used.

Carter (E. Tremlett) Motive power and gearing for electrical machinery : a treatise on the theory and practice of the **mechanical equipment of power stations** for electricity supply and for electric power and traction, revised by G. Thomas-Davies. 2nd ed. 1905. *ill.*
[B96] 8076

The book is divided into six parts, in which the principal sources of power for engines are separately discussed both theoretically and practically. Part 6 consists of descriptive accounts of some typical modern electric power stations.

Cooper (W. R.) *ed.* "The Electrician" Primers; being a series of helpful **primers on electrical subjects** for the use of students, pupils, artisans, and general readers. 3 v. n.d. [1906] *ill. diagrams.* [B96]

Vol. 1. Theory. [B96] 8090.

Vol. 2. Electric traction, electric power and lighting. [B98] 8104.

Vol. 3. Telegraphy, telephony, electrolysis, and miscellaneous applications of electricity. [B100×102] 8145.

Each volume contains a glossary.

Engineering Standards Committee. British standard specifications for ammeters and voltmeters. 1909.
[B96] '... .. Ref. 784

Fleming (J. A.) **Electric lamps** and electric lighting : a course of four Lectures on electric illumination, delivered at the Royal Institution of Great Britain. 1899. 2nd. ed. *ill.* [B98] 8068

Author is Professor of Electrical Engineering, University College, London. Deals with the physical effects and problems concerned with the modern applications of electricity for illumination purposes, in non-technical language.

Goldschmidt (Rudolf) The Alternating current commutator motor and The Leakage of induction motors. 1909. *ill.* [B98] 6981

1. Principles, designs, and construction of various types of motors, with examples and performances. 2. Deals in a practical manner with the leakage of induction motors.

Hobart (H. M.) Electricity. 1909. [B96] 6980

Author is Member of the Institute of Civil Engineers. Practical introduction to the most important principles of electricity, designed for the beginner who has some theoretical knowledge.

- Hobbs** (W. R. P.) **The Arithmetic of electrical measurements**, with numerous examples fully worked. 13th ed. n.d. [1909] [B96×330] ... 6845

Problems involving the application of Ohm's law, Lenz's law, and other fundamental principles of electric technology, including examples from examination papers of The City and Guild of London Institute. Answers to problems are given.

- Kennelly** (A. E.) and H. D. Wilkinson. **Practical notes for electrical students**. v. 1, Laws, units, and simple measuring instruments. n.d. *ill. diagrams*. [B96] 8077

An elementary work with practical experiments.

- Lummis-Paterson** (G. W.) **The management of dynamos: a handy book of theory and practice for the use of mechanics, engineers, students, and others in charge of dynamos**. 4th ed. 1908. *ill.* [B96] ... 5898

Scientific principles, construction, and management of dynamos. First published 1895. This edition thoroughly revised and enlarged.

- Metcalf** (Charles C.) **Practical electric wiring for lighting installations**, suitable for foremen, wiremen, students, and for all those who wish to acquire a practical knowledge of wiring, jointing, and fitting for the installation of the electric light. 1905. *ill. diagrams. plans*. [B98] 9773

Author is Lecturer and Instructor in Practical Wiring, Municipal School of Technology, Manchester.

- Monckton** (C. C. F.) **Radio-telegraphy**. 1908. *ill.* [B101×A272] ... 6575

Author is Member of the Institute of Electrical Engineers. Principles and practice of wireless telegraphy, with introductory chapters on elementary electricity and magnetism.

- Oulton** (Leonard) and Norman J. Wilson. **Practical testing of electrical machines**. 1909. *ill.* [B96] ... 7163

For engineers and students. Considers the various tests in the order in which they may be most conveniently taken. In each case the example, with figures and results, are given. A manual to be used in connection with standard text-books on the theory of electrical machines.

- Steinmetz** (Charles P.) **Radiation** light and illumination: a series of engineering lectures delivered at Union College; compiled and edited by Joseph L. Hayden. *New York.* 1909. *ill.* [B98 × A280] 7409

Lectures on the physics of light and radiation, and the theory of artificial illumination, especially electric.

- Thomälen** (Adolf) A Text-book of **electrical engineering**, *trans. from the German* by George W. O. Howe. 2nd ed. 1910. [B96] 7397

This work is almost entirely devoted to principles, and does not deal with the practical construction of apparatus and machinery, but is intended as a basis for the study of practical works. Higher mathematics employed do not go beyond the simple elements.

- Walker** (Sydney F.) **Electricity** in homes and workshops: a practical treatise on **electrical apparatus**. 4th ed. 1906. *ill.* [B96] 9776

Deals with batteries, bells, and signals; electric light for private houses, hotels, and shops; electric driving for small works; heating by electricity; and electric motors. Chapter I. consists of a glossary of terms fully explained.

- Young** (J. Elton) **Electrical testing** for telegraph engineers; with appendices. n.d. [1909] *ill.* [B100] 8066

Theory and practice in all that concerns the every-day work of the telegraph and telephone engineers, and those in charge of cables for transmission of light and power. The localisation of faults is very fully dealt with. Appendices consist of useful tables and data.

Class C.—Fine and Recreative Arts.

- Bancroft** (Jessie H.) **Games** for the playground, home, school, and gymnasium. *New York.* 1909. *ill.* *diagrams.* [C490] 8074

Games are classified according to their nature:—"Counting out" games, active games, quiet games, feats and forfeits, singing games, etc. Introduction deals with the uses of Games, and of their origins. Chapter of suggestions to the teacher of games.

- Birch** (Noel) **Modern Riding**, with notes on horse training. 2nd ed. *ill.* [C628 × B126] 7009

Author is in command of the Riding Establishment, Royal Horse Artillery, Woolwich. A manual of principles and practical teaching for instructors. Especially useful to officers and non-commissioned officers who have to teach riding.

Carter (A. R. C.) *Compiler. The Year's Art*, 1910: a Concise epitome of all matters relating to the arts of painting, sculpture, engraving and architecture, and to schools of design, which have occurred during the year 1909, together with information respecting the events of the year 1910. 1910. *ill.* [C6] Ref. 1090

Chaffers (William) *The Collector's Handbook to Keramics of the Renaissance and modern periods selected from his larger work, entitled "The Ceramic Gallery."* 1909. *ill.* [C175] 7435

Describes and illustrates each individual kind of pottery and porcelain produced in English and foreign factories from the Renaissance to the middle of the 19th century.

Combarieu (Jules) *Music: its laws and evolution.* 1910. [1909] *ill.* [C264] [*International Scientific Series*] 5679

Author is Professor of History of Music College of France. Principle aspects of music, its place in the history of civilisation, and its relation to acoustics, mathematics, psychology, æsthetics, history and sociology.

Duthie (A. L.) *Decorative glass processes.* 1908. *ill.* Ref. 936

Foster (J. J.) *Chats on old miniatures.* 1908. *col. frontis. ill.* [C40 x I68] Ref. 755

A practical guide for the Collector, with a short history of miniature painting, dealing especially with the masters. Chapters on Royal and private collections and public collections. Bibliography.

Gamble (William) *Line photo-engraving: a practical handbook on all methods of reproduction in line, grain and stipple.* n.d. [1909] *ill.* [C138] 7401

Author is Editor of "The Process Year Book." Contains historical sketch of line engraving.

Gotch (J. Alfred) *The Growth of the English house: a short history of its architectural development from 1100 to 1800.* 1909. *ill.* [C218] 6957

Traces the first germ of the house of to-day back to the Norman keep, but author considers the fortified manor house its more direct ancestor. Chronological list of castles and houses. Glossary.

- Graham** (Sir Reginald) **Fox-hunting** recollections.
1908. *ports.* [C614] 7938

Includes recollections of the following Hunts:—Beaufort, Burton, Cotswold, New Forest, Tedworth, Hurworth, Norton Conyers, Atherstone, Pytchley and Quorn.

- Grey** (Zane) **The Last of the Plainsmen.** 1909. *ill.*
port. [C514 × F274] 6821

Describes a sporting trip across the Arizona Desert and Buckskin Mountains in 1907, with Buffalo Jones, a famous American plainsman, known as the "Preserver of the American Bison," on account of his efforts to save those animals from extinction.

- Holme** (Charles) *ed.* **Old English colour-prints.**
1909. *col. plates.* [C118] [*Studio Special Number*] ... Ref. 697

A collection of representative English colour prints, with notes, and a historical introduction by Malcolm C. Salaman.

- Kitson** (C. H.) **Studies in fugue.** 1909. [C280] ... 9779

The principles of fugal construction with many illustrative scores.

- Prideaux** (S. T.) **Aquatint** engraving: a chapter in the history of book illustration. n.d. [1909] *ill.* [C112] Ref. 951

A history of aquatint in England and France, with a full description of the process. Appendices include list of books with aquatint plates published before 1830, biographical notices of engravers. Select bibliography. 2 pp.

- Richardson** (E. C.) **The Ski-runner.** n.d. [1909]
ill. [C637] 8169

A complete guide to the art of ski-ing, with an historical account and chapters on ski-ing countries, snow, avalanches, and other useful information. Bibliography.

- Robertson** (Mrs. Gordon) **Hints to lady golfers.** 1909.
ill. [C598] 6299

Author is Golf Professional at Prince's Ladies' Golf Club, Mitcham. Practical instructions for beginners.

- Spinney** (R. D.) **Drawings for medium-sized repetition work with examples of drawings for motor car parts.**
1909. *ill.* [C68 × B304] 7177

- White** (Ernest G.) Science and singing: a consideration of the capabilities of the **vocal cords and their work** in the art of tone production. 1909. *dia.* [C456 × A48] 7726

Purpose of the book is to prove that the vocal cords are not and cannot be sound producers.

- Williams** (J.) **Roller skating** for health and pleasure. 1909. *ill.* [C636] 7417

Practical instruction in all branches of roller skating, including various dances.

- Wilmer** (Daisy) Early **English glass**: a guide for collectors of table and other decorative glass of the 16th, 17th, and 18th centuries. 1910. *ill.* [C175] 7436

History, description, values, and general information for collectors.

Class D.—Social and Political Science.

Apprenticeship and Skilled Employment Association.

Trades for London boys and how to enter them. 1908.

[D103] Ref. 937

Gives full details of the trades open to London boys: wages, hours of labour, prospects, etc. *Appendix*:—Factory and Workshops Acts.

Apprenticeship and Skilled Employment Association.

Trades for London girls and how to enter them. 1909.

[D103] Ref. 938

Companion volume to "Trades for London Boys."

- Aveling** (Henry F.) *and others.* The History sheet and case-paper system. 1909. [D424 × 48] 4707

Contains five papers which have been read at Poor Law Conferences dealing with the methods of keeping records of applicants for Poor Law relief.

- Breul** (Karl) The teaching of modern **foreign languages** and the training of teachers. 4th *ed.* 1909. [D454] 4208

Author is Cambridge University Reader in Germanic. Has a bibliography, and a bibliographical chapter on the Reference Library of a school teacher of German.

- Cooper** (William E.) Britain for the Briton : co-operative working of agriculture and other industries a necessity : an earnest appeal for land, industrial, economic, and other vital reforms. 1909. [D94]... .. 5888

Discusses problems of agriculture, free trade, protection, old-age pensions, unemployed, evils of the "party" system, land tenures, &c. The work, as a whole, is antagonistic to Free Trade, and advocates co-operation in agriculture and other industries.

- Craddock** (Mrs. H. C.) The **Training of children** from cradle to school : a guide for young mothers, teachers, and nurses. 1909. *frontis.* [D29]... .. 3970

A guide to the general care of children ; their bodily health, food and clothing, moral and religious training, with chapters on children's games and children's books.

- Dunmore** (Walter T.) **Ship subsidies** : an economic study of the policy of subsidizing merchant marines. n.d. [1907] [D357 x B168] 7261

Author is Instructor in the Law School, Western Reserve University. A discussion of the arguments for and against ship subsidies, and their influence on the trades and general economics of the countries adopting the policy. Has a bibliography.

- Esdale** (Marcus) **How property is valued** : a popular explanation. n.d. [1910] [D424] 7498

Deals with the factors which govern the value of houses and land, and the principles of valuation. Leasehold valuation tables, reversions. Auctioneer's and estate agent's charges. Solicitor's charges and stamp duties. Assessments for rating purposes.

- Headley** (F. W.) **Darwinism and modern socialism.** 1909. [D78] 4706

Shows how civilization in the past has largely depended on the tribe and the communal village, which were to some extent socialistic. Modern socialism tends to the extinction of all competition, and consequently the struggle for existence, and, therefore, the author concludes that socialism can never be a working system anywhere but in Utopia.

- Hyamson** (Albert M.) **Humour of the Post Office.** 1909. [D406 x L22] 7114

NOTES AND NEWS.

REPORT OF THE PUBLIC LIBRARIES COMMITTEE FOR THE YEAR ENDING MARCH 31st, 1910.

The general work of the Libraries of the Borough during the past year has been marked by steady progress.

Stock of Books.—The number of volumes contained in the Libraries at March 31st, 1910, was 32,987, distributed as follows :—

	Reference Library.	Lending Library.	Juvenile Library.	Totals.
Central Library... ..	8,285	16,757	2,615	27,657
Pentonville Library ...	226	2,164	—	2,390
St. Sepulchre Library ...	125	2,815	—	2,940
	<u>8,636</u>	<u>21,736</u>	<u>2,615</u>	<u>32,987</u>

Borrowers.—The number of registered borrowers at March 31st, 1910, was 3,536.

Issues of Books.—During the year there were issued from the Libraries 185,118 volumes, an increase of 2, 446 compared with the previous year's work :—

	Reference Library.	Lending Library.	Juvenile Library.	Totals.
Central Library... ..	45,695	86,827	18,624	151,146
Pentonville Library ...	4,695	5,739	—	10,434
St. Sepulchre Library ...	17,449	6,089	—	23,538
Totals ...	<u>67,839</u>	<u>98,655</u>	<u>18,624</u>	<u>185,118</u>

The issue of Fiction stands at the comparatively low percentage of 47 to the whole of the books circulated.

Replacements.—218 volumes have been purchased to replace popular works of fiction which, through constant use had become unfit for further circulation, while 28 were lost or damaged by borrowers, and new copies purchased at their expense.

Binding and Repairs.—951 volumes have been rebound during the year, whilst minor repairs to books in the stock of the various departments have been executed by the Staff.

Periodicals, Magazines, etc.—54 copies of newspapers, 304 Periodicals, Magazines, and Transactions of Learned Societies are available for consultation in the News and Reading Rooms attached to the Libraries.

Popular Lectures.—The following Lectures were delivered in the Finsbury Town Hall under the auspices of the Libraries Committee during the period covered by this Report :—

Ely Cathedral. H. W. Fincham, Esq.

Reminiscences of Spain. W. Pringle, Esq.

Some historic buildings of the City of London. T. R. Croger, Esq., F.R.G.S.

Pompeii. Mrs. Douglas Wilson.

Rome. Councillor The Rev. Prebendary Perry, M.A.

London in the early times. E. W. Maples, Esq., M.A., LL.D.

Execution and burial of King Charles I. The Rev. Cannon Sheppard, C.V.O., D.D. (Sub-Dean of His Majesty's Chapels Royal and Canon of Windsor).

Mr. Councillor Putterill, a Member of the Libraries Committee, has again placed the Committee under deep obligation by providing the lantern and illustrating the Lectures throughout the session free of expense. The Committee desire to place on record their appreciation of his services, and to those who have so kindly delivered the Lectures during the session.

The efforts of the Committee to contribute to the facilities for educative recreation of residents in the Borough are fully justified by the success with which they have been attended, and it is a matter for deep regret that the Local Government Board have definitely declined to sanction further expenditure of public money for this purpose, but the Committee hope that some means may yet be discovered for the continuance of these popular Lectures.

Donations.—The best thanks of the Committee are due to the numerous donors for the various gifts of books, periodicals, etc., received during the year, including the following additions to the Local Collection :— Mrs Rose, Registers of Marriages, Christenings

and Burials of St. James', Clerkenwell, 6 volumes; Mr. Councillor Abrahams, coloured print of Grimaldi as Friar Bacon; Mr Councillor Cooksey, Sadler's Wells Play Bill, 1835, and Subscription List for Election of Vicar of St. James', Clerkenwell, 1839; Mr. H. W. Fincham, Views of St. John's Church and Gate; Mr. P. G. Killick, old Wooden Smoking Pipe, found during excavations at the Burial Ground, Exmouth Street; Councillor The Rev. T. W. Wood, framed Portrait of the Rev. J. H. Rose, M.A., late Vicar of Clerkenwell.

The Committee avail themselves of this opportunity of inviting the co-operation of residents in the Borough in building up the Local Collection. Donations of books, maps, photographs, prints, old deeds, or other matter relating to the Borough, also books on the trades and arts carried on in the past or present in the locality will be much appreciated.

LIST OF RECENT ADDITIONS.

The numbers which appear at the end of the entries [A316] are those of the Class Divisions where the books are to be found. Each class (save fiction) is arranged in a progressive, numerical order, and the books are marked to correspond. Copies of the Adjustable Classification scheme by which the Library is arranged, with Index and Catalogues, will be found attached to every bookcase.

NOTE.—Numbers preceded by the letter “P” or “S” represent books which are at the Pentonville or St. Sepulchre Branch Libraries, whilst entries with the abbreviation Ref. preceding the accession number denote that the work is shelved in the Central Reference Library. Other abbreviations are: C.: century; ed.: editor; frontis.: frontispiece; ill.: illustrated; n.d.: no date of publication; port.: portrait; trans.: translated; v.: volume.

Class A.—Science.

NOTES AND NEWS.

Free Popular Lectures.—The following note on the Free Lectures, which have been delivered in connection with the Libraries, is taken from the *Islington Gazette*:—

“There are very many residents of Finsbury who will bemoan the fate of the “free, popular lecture” movement in this borough. After being carried on for three winter seasons, and most successfully from every point of view except in regard to the difficulty that eventually arose over the expenditure for printing and for the lantern by which the lectures were illustrated—the Local Government Board upholding the action of the district auditor in disallowing the further expenditure of money out of the library rate for that purpose—such lectures are not to be given again. When the Libraries Committee found themselves confronted with this difficulty of finance, the matter was eventually referred to a sub-committee with a view to formulating a scheme for the continuance of the lectures as a voluntary undertaking, but the efforts in this direction proved futile, and the lectures, as I have explained, are with us no longer except in memory.

During the period of three seasons, twenty-two of these lectures were delivered, attracting a total attendance of 11,000. This gives an average audience of 500, of course, and, according to the

committee, is an attendance far in excess at similar lectures given in any other London borough. And these were lectures, too, of great educational value, some being on subjects that would enlighten vast numbers of Londoners on historical facts concerning their native city. Now these are "no more;" primarily, because the Local Government Board will not permit of the "princely" amount of something like a dozen pounds per season being taken out of the library rate for expenses of the kind to which I have referred; and, secondly, because an effort to formulate a scheme to meet this necessary expenditure by voluntary subscriptions came to nought.

According to Councillor Randall, the Chairman of the Libraries Committee, pressure was brought to bear on the Local Government Board to permit of the liquidating of this expense out of the rate in question, but there is a rule which decrees that neither for lectures nor concerts must expenditure be so met. Here, at any rate, there seems a good case for "reform," and in a fight for it no doubt vast numbers of Municipal Reformers and Progressives, and members of other Parties for the matter of that, would readily combine."

LIST OF RECENT ADDITIONS.

The numbers which appear at the end of the entries [A280] are those of the Class Divisions where the books are to be found. Each class (save fiction) is arranged in a progressive, numerical order, and the books are marked to correspond. Copies of the Adjustable Classification scheme by which the Library is arranged, with Index and Catalogues, will be found attached to every bookcase.

NOTE.—Numbers preceded by the letter “P” or “S” represent books which are at the Pentonville or St. Sepulchre Branch Libraries, whilst entries with the abbreviation Ref. preceding the accession number denote that the work is shelved in the Central Reference Library. Other abbreviations are: C.: century; ed.: editor; frontis.: frontispiece; ill.: illustrated; n.d.: no date of publication; port.: portrait; trans.: translated; v.: volume.

JANUARY, 1911.

No. 67.

NOTES AND NEWS.

In response to the increasing demand for information respecting the British Colonies and other Countries suitable for emigrants, it has been decided to form a special collection of official guides, handbooks, and other publications dealing with these countries, and thereby to supplement the historical and geographical works on these countries which are already in the Libraries.

The convenience of obtaining at one institution, information concerning opportunities, conditions of labour, wages, cost of living, climate, cost of passage, etc., in any country of the British Empire and elsewhere, will be found of great service to those desirous of emigrating.

The list published in this number of the "Quarterly Guide," pp. 83-90, is preliminary only, and further additions will be made from time to time in order to make the collection as comprehensive as possible.

The Handbooks on various Colonies issued quarterly by the Emigrants' Information Office are distributed free at the Central Reference Library.

The Libraries' staff will make every effort to supply any information an enquirer may be seeking, and readers are reminded that much time may possibly be saved by referring to an Assistant before starting on a search for information themselves.

LIST OF RECENT ADDITIONS.

The numbers which appear at the end of the entries [A254] are those of the Class Divisions where the books are to be found. Each class (save fiction) is arranged in a progressive, numerical order, and the books are marked to correspond. Copies of the Adjustable Classification scheme by which the Library is arranged, with Index and Catalogues, will be found attached to every bookcase.

NOTE.—Numbers preceded by the letter P or S represent books which are at the Pentonville or St. Sepulchre Branch Libraries, whilst entries with the abbreviation R preceding the accession number denote that the work is shelved in the Central Reference Library. Other abbreviations are: C.: century; ed.: editor; frontis.: frontispiece; ill.: illustrated; n.d.: no date of publication; port.: portrait; trans.: translated; v.: volume.

No. 68.

NOTES AND NEWS.

In a Library where access to the shelves is perfectly free, it is essential that the books should be so arranged and the classification be so exact, that even the most inexperienced reader may at once find the required volume after consulting the catalogue.

The scheme at present in use is known as the Adjustable Classification, and was adopted in 1898, but owing to its inadequate treatment of important subjects, and the fact that it has long past reached its limit of adjustability, and requires constant revision, it has become absolutely necessary to provide some new and comprehensive scheme of arrangement. After careful study of the various methods at present in use, the Library of Congress Scheme of Classification has been adopted.

The general plan consists of a letter and number arrangement—the primary letter indicating main groups as follows:—

A. General works. Polygraphy; B. Philosophy and Religion; C. History—Auxiliary Sciences; D. History and Topography (except America.) E. History and Topography, America; F. History and Topography, America, Local; G. Geography—Anthropology; H. Social science; J. Political science; K. Law; L. Education; M. Music; N. Fine Arts; P. Language and literature; Q. Science; R. Medicine; S. Agriculture—plant and animal industry; T. Technology; U. Military science; V. Naval science; Z. Bibliography.

To these main letters are attached secondary letters indicating the greater sub-division, e.g., BD. Metaphysics ; CJ. Numismatics ; DS. History and topography of Asia ; HC. Economic History ; ML. Music literature ; MT. Music instruction ; NC. Graphic Arts ; QD. Chemistry ; SK. Hunting ; TP. Chemical Technology.

The sub-divisions of these main classes are provided for by numbers and permit of the utmost expansion.

This new system has been applied to Music, Musical Literature, and theory of music, each volume receiving a specific symbol and number. The next sections to be re-classified are Fine arts and Technology, and the work will be carried on without interruption or inconvenience to the readers.

As each book is re-classified it will be re-catalogued and new subject cards compiled. These cards will be inserted in the public card-catalogue in the Central Lending Department, and by gradual insertion and substitution, a complete and authoritative catalogue of the collection will be gradually formed.

2148-2188	Liturgy and ritual.
2190-2196	Juvenile sacred
2198-2199	Temperance, rescue, mission, &c., songs.

It should be noted that each subject has a definite number, and it therefore follows that all books on a particular subject must stand together.

The works in the following list are arranged in exactly the same order as they stand on the shelves, namely, in the simple numerical order of the class numbers. In this list are recorded the works contained in the Library, of instrumental music and vocal scores of operas.

The list is mainly the work of Miss G. Mackenzie, Senior Assistant, Central Library.

JULY, 1911.

No. 69.

NOTES AND NEWS.

REPORT OF THE PUBLIC LIBRARIES COMMITTEE FOR THE YEAR ENDING MARCH 31st, 1911.

Stock of Books.—The number of volumes contained in the Libraries at 31st March, 1911, was 33,682, distributed as follows :—

	Reference Library.	Lending Library.	Juvenile Library.	Totals.
Central Library ...	8,696	16,955	2,652	28,303
Pentonville Library ...	242	2,172	—	2,414
St. Sepulchre Library	126	2,839	—	2,965
Totals	9,064	21,966	2,652	33,682

Borrowers.—The number of registered borrowers at 31st March, 1911, was 3,590.

Issues of Books.—During the year there were issued from the Libraries 184,885 volumes, being a decrease of 233 compared with the previous year. The issue during 1910-11 was the second highest in the history of the institution. The marked increase in the issue of non-fictional literature affords ample evidence of the great advance which the Libraries are making in promoting reading of an educational character.

	Reference Library.	Lending Library.	Juvenile Library.	Totals.
Central Library ...	50,658	79,394	16,913	146,965
Pentonville Library ...	5,010	5,819	—	10,829
St. Sepulchre Library	20,328	6,763	—	27,091
Totals	75,996	91,976	16,913	184,885

Replacements.—140 volumes have been purchased to replace popular works of fiction which, through constant use, had become unfit for further circulation, while 25 were lost or damaged by borrowers, and new copies purchased at their expense.

Binding and Repairs.—753 volumes have been rebound during the year, whilst minor repairs to the books in the stock of the various departments have been executed by the staff.

Reading Rooms.—The News and Reading Rooms continue to be a most useful factor in the work of the institution. It is estimated that more than 2,500 persons visit these rooms daily to consult the newspapers, directories, periodicals, and trade journals.

Periodicals, &c.—40 copies of newspapers, 244 periodicals, magazines and transactions of learned societies are available for consultation in the News and Reading Rooms attached to the Libraries, distributed as follows:—

	Central Library.	Pentonville Library.	St. Sepulchre Library.	Totals.
Daily	23	6	11	40
Bi-Weekly	1	—	—	1
Weekly	88	14	11	113
Fornightly	2	1	2	5
Monthly	96	15	10	121
Alternate Months	1	—	—	1
Quarterly	7	—	—	7
	218	36	34	288
Time Tables	28	1	22	51

Sunday Attendance.—The Central Reference Library and Reading Room were open on Sundays, 3 to 9 p.m., from October to May inclusive:—

Total number of visitors to Reading Room	... 2,096
Average number of visitors per Sunday	... 64
Total number of reference books consulted	... 624
Average number of reference books consulted per Sunday	... 19

Electric Lighting.—It is gratifying to note that by the substitution of the metallic filament lamp for the ordinary carbon lamp in the Central and Branch Libraries, the Committee have been able to reduce the expenditure for lighting from £197 4s. 2d. in 1909 to £74 8s. 8d. for 1910-11, a saving of £122 15s. 6d. in outlay for a much improved service.

Donations.—The best thanks of the Committee are cordially tendered to the numerous donors for various gifts of books, periodicals, local prints, &c., received during the year. In particular the Committee desire to place on record their appreciation of the

gift of Ten Guineas from the Worshipful Company of Skinners to strengthen the music section attached to the Central Lending Library.

The Committee avail themselves of this opportunity of inviting the co-operation of residents in the Borough in building up the Local Section. Donations of books, maps, photographs, old deeds or other documents relating to Clerkenwell, Charterhouse, St. Sepulchre, and St. Luke, also works by authors connected with the Borough of Finsbury will be much appreciated.

In reviewing the record of the past year, the Committee consider it a matter for congratulation to know that the book issues have been so well maintained, as throughout the year, owing to the diminished yield of the Library rate, it has been necessary to retrench, and in consequence the expenditure for new books has been much lower than in previous years. It is gratifying to note, however, that the year has been completed with a small balance in favour of the Committee.

NOTES AND NEWS.

The Finsbury Public Library Lectures. To those who attended the Free Popular Lectures arranged by the Public Libraries Committee for several seasons in the past, it is gratifying to know that they are being continued this Winter. Owing to the decision of the Local Government Board, which forbade any further expenditure for this purpose out of the Library Rate, a Library Lecture Committee has been formed, consisting of Members of the Public Libraries Committee, who will carry on the work of organizing the Lectures, and the expenses will be met by voluntary contributions.

The Lectures have in the past proved of great educational value, and the residents of Finsbury are to be congratulated on the decision of the Lectures Committee to continue this most useful work during the winter months. The session opened at the Finsbury Town Hall on Wednesday, 8th November, when Mr. H. W. Fincham, a member of the Public Libraries Committee and of the Lecture Committee, delivered his popular lantern lecture entitled "A Ramble in old Clerkenwell." On this occasion every seat in the large Hall was occupied, and there were many of the audience who could find standing room only. Being a purely local lecture, the interest of the large audience was very keen, and the vote of thanks to the Lecturer, proposed by the chairman, Mr. Councillor H. B. Barton, the present Mayor of Finsbury, was carried with enthusiasm,

On Wednesday, December 13th, Mr. F. G. Newmarch delivered a most interesting and instructive lantern lecture describing his travels and adventures in Algeria and the Sahara. In spite of the bad weather and the near approach of Christmas, the audience was large and appreciative.

The following Lectures, which no doubt will prove of equal interest as those already delivered, complete the programme for this winter :—

Wednesday, 10th January, 1912. Mrs. W. Plomer Young.
“ St. Paul’s Cathedral : its history, architecture and important monuments.”

Wednesday, 14th February, 1912. Councillor the Rev. Prebendary Perry, M.A. “ Northern Italy and the Italian Lakes.”

Wednesday, 13th March, 1912. C. H. Hopwood, Esq.
“ A Walk and talk in the Tower of London.”

The Central Library, Skinner Street, contains the best works dealing with each of the subjects of the Lectures.

LIST OF RECENT ADDITIONS.

The numbers which appear at the end of the entries are those of the Class Divisions where the books are to be found. Each class (save fiction) is arranged in a progressive, numerical order, and the books are marked to correspond. Copies of the Adjustable Classification scheme by which the Library is arranged, with Index and Catalogues, will be found attached to every bookcase.

NOTE.—Numbers preceded by the letter P or S represent books which are at the Pentonville or St. Sepulchre Branch Libraries, whilst entries with the abbreviation R preceding the accession number denote that the work is shelved in the Central Reference Library. Other abbreviations are: C.: century; ed.: editor; frontis.: frontispiece; ill.: illustrated; n.d.: no date of publication; port.: portrait; trans.: translated; v.: volume.

QUARTERLY GUIDE FOR READERS.

VOL. XVIII.

APRIL, 1912.

No. 72.

The present number of the "Quarterly Guide for Readers" forms a Handbook of Information relating to the Public Library system of the Metropolitan Borough of Finsbury.

The Central Library. Telephone 102 City.

Situation. The Central Library is situated at the corner of Skinner and Whiskin Streets, Clerkenwell.

Newsroom:—Open to the public each week-day (except such as are public holidays) from 8 a.m. to 10 p.m. No introduction or guarantee is required, the only stipulation being that those who use the department shall observe the Rules and Regulations in force. In this room are displayed the principal London daily and weekly newspapers, together with a large selection of the best literary, scientific and trade periodicals. Lists of these are posted in the Entrance Lobby and also in the room. Any further information may be obtained of the Borough Librarian or his Assistants.

Reading Room:—This is situated on the first floor, and is open to the public each week-day (except such as are public holidays) from 9 a.m. to 10 p.m.; and on Sundays from 3 to 9 p.m. from October to May inclusive. Here are kept the principal magazines and reviews, railway time tables, directories, &c. A table for the use of ladies will be found at the end of the room, and on this are displayed journals of special interest to them.

Reference Library:—This is situated on the first floor, and is open to the public each week-day (except such as are public holidays) from 9 a.m. to 10 p.m.; and on Sundays from 3 to 9 p.m. from October to May inclusive.

It contains 9,000 works of reference in all classes of literature, and 1,000 works, principally dictionaries of languages, encyclopædias, technical and scientific works are placed on open shelves for the use of students and general readers.

This department also contains a collection of books on Watchmaking, Metal working, Jewellery, Designing, Costume, Optical Trades, and also a large and increasing library of books, maps, prints, &c., relating to the history and topography of the Borough. In addition, any work in the Lending Library, except fiction or works in circulation, may be had for consultation in the Reference Library on application on the forms provided for this purpose.

The Committee desire to draw the attention of residents and others engaged in the Borough to the great value of the Reference Library as an aid to industrial, commercial, literary and scientific pursuits or studies, and would point out that by its help a very large number of designers, students, and persons in search of general information have been assisted in their studies.

Lending Library:—This department is situated on the right of the entrance lobby, and is open for the issue and return of books daily (Sundays and public holidays excepted) from 10.30 a.m. to 9 p.m.

This department contains nearly 18,000 volumes, in every branch of literature, and also a good collection of works suited to the requirements of Gold and Silversmiths, Opticians, Bookbinders, Printers, Watch and Clock Makers, Electrical Engineers, and other skilled artisans residing or working in the district.

Juvenile Lending Library and Reading Room.—A special room is provided for the exclusive use of children and is open daily from 5 to 9 p.m.

On the walls are placed pictures depicting notable events in the history of England, large scale maps, illustrations of the Royal Standard, the Union Jack and a Genealogical chart of English sovereigns, showing the descent of each house and giving portraits of all monarchs. On each picture has been mounted a list of the available literature dealing with the period or locality. These lists, giving information concerning nearly 200 works, will prove exceedingly helpful to children studying Geography, or the history of any particular period.

The Juvenile Lending Library contains a carefully selected stock of 2,700 volumes in all branches of literature, available for home reading.

The works in this department have been catalogued and published under the Title of "Descriptive Handbook to Juvenile

Literature," and in order to bring the work within the reach of every child, the Committee have fixed the charge at One Penny to borrowers from the Juvenile section.

The Handbook is divided into two parts, the first forms an Author Catalogue, with brief descriptive notes on the principal works, especially when the latter are valuable as illustrations of history, geography, arts and sciences or on the manners and customs of the inhabitants of various countries, and the second part is a Subject Catalogue, arranged in classified order according to the "Adjustable Scheme" and shows at a glance the available literature on any particular topic.

BRANCHES.

Pentonville Branch Library was established in 1900 for the convenience of the residents and employees in the northern portion of Clerkenwell and is situated at 45, Penton Street, Pentonville, and contains a Lending Library and Reading Room. Open daily (Sundays and public holidays excepted) from 12 to 2 p.m., and 5 to 9.30 p.m.

The Reading Room is supplied with a number of periodicals and newspapers, and in addition there is a small collection of Reference books, which readers may consult without formality.

The Lending Library contains about 2,500 volumes on many subjects of interest, including a good selection of novels by the best authors.

St. Sepulchre Branch Library was established in 1904 for the convenience of the residents and employees in the Southern part of the district, and is situated at 48, St. John Street, West Smithfield, and contains a Reading Room and Lending Department.

In the Reading Room, which is open daily (Sundays and public holidays excepted) from 8 a.m. to 8 p.m., are to be found the principal London newspapers, trade journals, directories, and a small collection of Reference books which readers may consult without formality. The Lending Library which is open daily from 12.30 to 2.30 and 6 to 8 p.m., contains about 3,000 volumes representative of all classes of literature, including a good selection of novels by the best authors.

Any book catalogued at the Central Library, Skinner Street, can be obtained by borrowers at the Branch Libraries by giving one day's notice to the Assistant in charge.

HOW TO JOIN THE LENDING LIBRARIES.

The method of joining the Lending Departments of the Library system is as simple as is compatible with a proper regard to the safety of the books.

(a) Any person occupying a house, shop, or other building in the Borough, or any person whose name appears in the Parliamentary Register of Finsbury for the current year, is entitled to borrow books from the Libraries by simply signing a printed (pink) form of application undertaking to abide by the rules of the Library, which includes making good any loss or damage a book may sustain while in his possession.

A householder whose name at the time of application does not appear on the Parliamentary Register, may join the Library as above, by showing at the time of application, the receipt of the last payment of rates, or if he or she has not yet paid a rate, upon production of the rate demand.

(b) Any person residing or employed in the Borough is entitled to borrow books by signing a printed (buff) form of application, and obtaining the signature of a householder as guarantee for the safe return of books.

(c) Any teacher engaged in a Public Day School in the Borough may borrow books by simply signing a printed (pink) form of application. No guarantee is required.

(d) Any boy or girl living in the Borough may borrow books by (1) signing a form of application and obtaining the signature of a householder, or (2) by obtaining a form of recommendation from the principal of any Public Day School in the Borough.

(e) Any student attending the Northampton Institute may borrow books by obtaining a form of recommendation from the Principal.

Extra Tickets. Borrowers are reminded that extra tickets, available for non-fictional works are issued after a form has been signed in the usual way. By their use readers may take two works at the same time, a novel on the ordinary ticket, and a volume from the historical, biographical, musical, scientific, or any other section except Fiction. Students and Teachers will find this a great convenience.

Regulations.

Application forms, duly signed, must be delivered to the Librarian or his Assistant, and if on examination they are found to comply with the rules and regulations, tickets will be issued on the evening

following the day of receipt. These tickets when issued will be available at any of the Libraries in the Borough. All tickets must be renewed annually.

Admission to the Lending Library is obtained by the production of either a book or a Reader's Ticket, without which no reader is allowed to pass the wicket, nor is he permitted to leave without having the book he has chosen entered or charged to him. While in the Library the borrower retains possession of his ticket, which he leaves at the Charging Desk at the exit when he takes a book.

Borrowers leaving the district or ceasing to use the Library are required to return their tickets to the Librarian in order to have them cancelled. Change of address should be notified at once. Immediate notice should be given in the event of a ticket being lost as a registered holder of a ticket is in all cases held responsible for books borrowed by its means.

Each borrower is entitled to two books at a time, only one of which shall be a work of fiction.

Borrowers must return each volume lent within fifteen days, including day of issue and return, and shall be liable to a fine of 1d. per week or portion of a week for each volume lent, if not returned within that period, but the issue of a book may be renewed for a further period of fifteen days, dating from the day of intimation, on notice being given to the Librarian either personally or in writing.

Borrowers who are unable to obtain a particular non-fictional work and desire that it shall be retained for them on its return, must give its title, number, etc., to the Assistant, and pay 1d. to cover cost of posting an intimation that it is available for issue, but no book will be reserved beyond the period mentioned in the notice sent. Novels cannot be reserved under this rule.

Books should be examined for mutilations, etc., at the time of issue, as the last borrower will be held responsible for the condition in which a book is returned.

Lost Books.—If a book is lost by a borrower he will be charged the price paid by the Library for the book. When a volume of a work in two or more volumes is lost, an endeavour will be made to procure a single volume to replace the one lost. If this cannot be done, the Librarian will be compelled to charge the price of the entire set, and the borrower will be given all but the volume needed to complete the set.

Contagious Diseases.—No person shall borrow a book for use in any house in which there is a person suffering from an infectious disease, nor shall return any book which has been exposed to infection, but shall at once give notice to the Medical Officer of Health, and leave the book at his office or hand it over to a Sanitary Inspector acting on his behalf.

ASSISTANCE TO READERS.

Readers meeting with any difficulty are requested to consult the Librarian or his Assistants, who will be pleased to explain the arrangement and location of books or to render any aid to students and others in search of information.

Residents finding themselves faced with a question they are unable to answer, and on which they desire enlightenment, are advised to make a note of the subject and then call at the Reference Library where Encyclopaedias, Dictionaries of Languages, Historical reference works, Atlases and all kinds of working reference books can be freely consulted without formality.

Recommendations of Books for Purchase.—Readers desiring a certain book or books to be added to the Library should give the title or titles to the Librarian for the consideration of the Books Sub-Committee. Slips on which such recommendations may be written are kept at the Lending Library Counter.

How to use the Catalogue.

If you want to find a book upon the shelves and know—

- (1) **The Author only**, consult the Sheaf catalogue :
- (2) **The Title only**, consult the Sheaf catalogue :

Or if you desire to ascertain—

- (3) **The resources of the Library** on a given subject, consult the Card Catalogue.

The numbers at the end of an entry are for registration purposes, whilst those at the top of the card are for classification purposes and denote where the book is shelved.

FINSBURY PUBLIC LIBRARY LECTURES.

The Finsbury Library Lecture movement dates from 1907, its object being to stimulate reading of useful and instructive books, and to foster a closer relationship between the institution and its frequenters.

After being carried on for three seasons, and most successfully from every point of view, this educational feature of the Committee's work had to be abandoned, owing to the Local Government Board upholding the action of the District Auditor in his contention that expenditure out of the library rate for lecture expenses was illegal.

Twenty-two of these lectures were delivered, attracting an audience of 11,000, and it is to be regretted that the Auditor should take such a restricted view of the Public Library Acts in prohibiting the expenditure of £10 by the Libraries Committee to provide facilities for the educative recreation of residents in the Borough.

When the Libraries Committee found themselves confronted with this difficulty the matter was referred to a sub-committee to formulate a scheme for their continuance as a voluntary undertaking, and it is gratifying to know that a Library Lectures Committee has been formed to carry on the work of organising the lectures, the incidental expenses being borne by voluntary contributions from members of the Borough Council and of the Libraries Committee, in sympathy with the principle of Library Lectures.

The Lectures Committee avail themselves of this opportunity of tendering an expression of their cordial thanks to these gentlemen, and also to the lecturers, for the very kind manner in which they have responded to the Committee's appeal by delivering the lectures without any remuneration.

Mr. Councillor Putterill has placed the Lectures Committee under deep obligation by providing the lantern and illustrating the Lectures throughout the session free of expense. The Committee desire to place on record their appreciation of his services.

Five lectures have been delivered under the re-organised scheme. The total attendance was 1,205 or an average of 241 for each lecture.

The following is the list of subjects :

Fincham, H. W.—“A ramble in old Clerkenwell.”

Newmarch, F. G.—“Through Algeria to the Sahara.”

Plomer-Young, Mrs. W.—“St. Paul's Cathedral: its history, architecture and important monuments.”

Perry, Councillor, the Rev. Prebendary, M.A.—“Northern Italy and the Italian Lakes.”

Hopwood, C. H., F.R.G.S.—“A walk and talk in the Tower of London.”

CLASSIFICATION AND ARRANGEMENT OF BOOKS.

The system of Classification in use previous to 1912 was known as the Adjustable Classification and was adopted in 1898, but owing to its inadequate treatment of important subjects, and the fact that it had long past reached its limits of adjustability, made it absolutely necessary to provide some new and comprehensive scheme of arrangement.

After experimenting with the various methods at present in use, the Dewey Decimal System was ultimately selected. Its adoption has this practical advantage, that it is the system in use in the majority of libraries, and forms as it were a common language, whereby the resources of one library may be readily compared with those of another.

This benefit will be appreciated by borrowers engaged in the district, but residing in other parts of London; since by this means they can ascertain what books each library possesses on any definite subject which they may be investigating.

The whole of the subjects on which books have been written are divided into classes, and a number fixed to each. There are ten main divisions, and these in their turn are again divided into ten, and these once more into ten, so that altogether there are 1,000 sections in the whole scheme. By adding a decimal point each section may be made capable of further sub-division to any extent.

It is not essential that borrowers should trouble to master the Classification. A free use of the index provided with this Handbook, will, it is thought, meet all requirements. If more detailed information is required, a copy of the Decimal Classification may be consulted at the Charging Desks. Attention is called to the Relative Subject Index at the end where subjects are arranged in one alphabet, followed by the Class number of each.

Borrowers should note that this Index not only refers them to the place in which books upon a subject are located, but to the Classification in which that subject finds its logical place—thus books on Mathematics will be found at 510; on Arithmetic at 511; on Algebra at 512; on Geometry at 513; on Trigonometry at 514; and so on.

Certain liberties have been taken with Professor Dewey's scheme in the arrangement of classes 8 and 9. It was thought to be more convenient to collect all poems, drama, essays, and other works of pure literature and arrange them in one alphabetical sequence, rather than distribute them under the names of the countries to which their authors belonged. This also applies to History and Travel. Topography and History being nearly akin, almost invariably touch one upon the other, and it is of advantage that all books upon each country should be found in one place, these works have therefore been located together.

QUARTERLY GUIDE FOR READERS.

VOL. XIX.

JULY, 1912.

No. 73.

REPORT ON THE WORK OF THE LIBRARIES

FOR THE YEAR ENDED MARCH 31st, 1912.

During the year under review much activity has been displayed in effecting improvements in the general equipment of the Libraries. A most important change has been introduced in the Central Lending Department. The old method of classifying the books has been superseded by a more extended and exhaustive scheme known as the Dewey Decimal Classification, and this reform has been carried out without in any way restricting the privileges of the borrowers.

Stock.—930 volumes were added during the year, of which 297 were placed in the Reference, 533 in the Lending, 46 in the Juvenile Department, 25 in the Pentonville Branch, and 29 in the St. Sepulchre Branch. There are now 9,361 volumes in the Reference Departments, 22,553 in the Lending Departments, and 2,698 in the Juvenile Department, making a total of 34,612, distributed as follows :—

	Reference Library.	Lending Library.	Juvenile Library.	Totals.
Central Library	8,993	17,488	2,698	29,179
Pentonville Library	242	2,197	—	2,439
St. Sepulchre Library	126	2,868	—	2,994
	9,361	22,553	2,698	34,612

Replacements.—267 volumes have been purchased to replace popular works of fiction which through constant use had become unfit for further circulation, while 9 were lost or damaged by borrowers, and new copies purchased at their expense.

Reference Libraries.—The popularity of the Reference Departments attached to the Central and Branch Libraries is growing rapidly. The number of books consulted during the period under review was 82,639 as against 75,996, an increase of 6,643 over the previous year.

Binding and Repairs.—874 volumes have been rebound during the year, whilst minor repairs to the books in the various departments have been executed by the staff.

Borrowers.—Tickets have been issued to 3,635 during the year. Of these 923 represent Juveniles.

Book Issues and Readers.—The total number of volumes issued was 180,186—82,639 were for Reference, 97,547 for home reading, including 16,869 Juvenile books—of which 140,965 were issued from the Central Library, 10,226 from the Pentonville Branch, and 28,995 from the St. Sepulchre Branch, classified as follows:—

			<u>180,186</u>				<u>184,888</u>		

This shows a slight decrease of 4,702 volumes as compared with last year, the figures being 180,186 and 184,188 respectively. The section in which the largest decrease is shown is that of Prose Fiction, which is probably due to the fact that a large number of volumes in this section are worn out and require replacing.

The daily average issue was 593, as against 599 volumes in 1910-11. The issue of Fiction stands at the comparatively low percentage of 39 to the whole of the books circulated, as against 43 per cent. during the previous year.

The number of books referred to, which have been classified in the foregoing table, by no means represent the whole of the work executed. The issue of quarterly, monthly and weekly periodicals which are placed in the various Reading Rooms attached to the Libraries is estimated at 121,600. To this must be added 60,800

consultations of Directories, &c. These combined figures make a grand total of 362,586 books and periodicals issued during the past year, and this apart from the enormous number of persons who visited the Libraries to consult or read the various newspapers.

Reading Rooms.—The Reading Rooms maintained their popularity during the period under review, and it is estimated that 390,868 visits were made, a daily average of 1,286.

Sunday Attendance.—The Central Reading Room was open on Sundays 3 to 9 p.m., from October to May inclusive.

Donations.—The best thanks of the Committee are cordially tendered to the numerous donors for various gifts of books, periodicals, local prints, &c., received during the year.

Local Collection.—The Committee avail themselves of this opportunity of inviting the co-operation of residents in the Borough in building up the Local Section. Donations of books, maps, photographs, old deeds or other documents relating to Clerkenwell, Charterhouse, St. Sepulchre and St. Luke's, also works of authors connected with the Borough of Finsbury will be much appreciated.

Concerning the history of the Borough, the Library already possesses a vast amount of material, and it is only the pressure of more urgent matters which prevents the issue of a special catalogue of the local books, pamphlets, maps, drawings, &c., so zealously collected from the foundation of the Library, and which would

afford the greatest pleasure and satisfaction to a very large number of residents.

Catalogues.—The stock of catalogues has been exhausted for some years, and in order to maintain the popularity of the Libraries it is essential that the printing of new catalogues be put in hand as early as possible. It is suggested that this should take the form of Class Lists of the various sections as being more economical and better suited to modern requirements.

Lectures.—The Lectures Committee report that through their efforts 1,500 persons have been entertained during the past winter at no cost to the Library rate.

It may be of interest to state that the Finsbury Library Lecture movement dates from 1907, and after being carried on most successfully for three seasons, this educational feature of the Committee's work, had to be abandoned owing to the Local Government Board upholding the action of the District Auditor in his contention that expenditure out of the Library rate for lecture expenses was illegal.

When the Libraries Committee found themselves confronted with this difficulty the matter was referred to a sub-committee to formulate a scheme for their continuance as a voluntary undertaking, and it is gratifying to know that a Library Lectures Committee has been formed to carry on the work of organising the lectures, the incidental expenses being borne by voluntary contributions from members of the Borough Council and of the Libraries Committee, in sympathy with the principle of Library Lectures.

The Lecture Committee avail themselves of this opportunity of tendering an expression of their cordial thanks to these gentlemen, and also to the lecturers, for the very kind manner in which they have responded to the Committee's appeal by delivering the lectures without any remuneration. The Committee also feel that they are deeply indebted to the Borough Council for the free use of the Town Hall which has rendered the Lectures possible.

Mr. Councillor Putterill has placed the Lectures Committee under deep obligation by providing the lantern and illustrating the Lectures throughout the session free of expense. The Committee desire to place on record their appreciation of his services.

Five lectures have been delivered under the re-organised scheme.

The following is a list of subjects:

Fincham, Mr. H. W.—“A ramble in old Clerkenwell.”

Newmarch, Mr. F. G.—“Through Algeria to the Sahara.”

Plomer-Young, Mrs. W.—“St. Paul's Cathedral: its history, architecture and important monuments.”

Perry, Councillor, the Rev. Prebendary, M.A.—“Northern Italy and the Italian Lakes.”

Hopwood, Mr. C. H., F.R.G.S.—“A walk and talk in the Tower of London.”
